

Let's Rebuild America

Economic productivity and global competitiveness depend on thriving and reliable transportation infrastructure. The U.S. Chamber of Commerce, as the leading voice of America's business community, believes that strong transportation infrastructure will lower operating costs, increase profitability, mitigate logistical challenges, and provide a catalyst for investment. It's time to get America moving again.

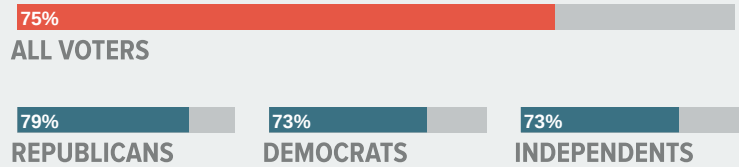

Americans Understand the Importance of Modernizing the U.S. Infrastructure System

Share of voters who say it's important that the U.S. modernize our nation's infrastructure system:

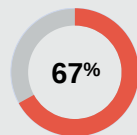

Across Party Lines, Voters Support the Federal Government Investing More in Infrastructure Modernization

Share of voters who support the federal government investing more to modernize our nation's infrastructure system:

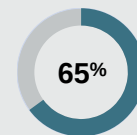

Infrastructure Investments are Expected to Benefit American Businesses and Spur Job Creation

Share of voters who say infrastructure investments will...

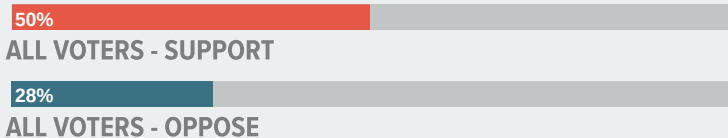

Create jobs

Help businesses in the United States

Nearly Twice as Many Voters Support Implementing a Federal Fuel User Fee to Ensure the U.S. has a 21st Century Infrastructure System

Would you support or oppose implementing a federal fuel user fee if you knew the additional funds would be applied to ensuring our nation has a 21st century infrastructure system?

Across Party Lines, Voters Demand Urgency from Congress Regarding Infrastructure Modernization and Investments:

Share of voters who want Congress to move forward with an infrastructure package now:
